 CONDICIONES GENERALES DE VENTA

GENERAL SALES CONDITIONS

1. GENERAL PROVISIONS

1.1 - In the course of the commercial relationship with FENABEL, S.A. (SENTTA brand), hereinafter referred to as the SUPPLIER, the Customer agrees to accept, without reservation, these General Conditions of Sale, which prevail over all stipulations contained in the Customer's orders or correspondence, unless expressly accepted by the SUPPLIER in writing, subject to the provisions of the Law.

1.2 - These General Terms and Conditions of Sale revoke the previous ones and are subject to change, suspension - partial or total - or supplementation, without the need for prior notice and/or formalisation by written document issued by the SUPPLIER. They are intended to regulate all sales of products made by the SUPPLIER to legal entities or individuals who intend to use the products in a professional or commercial activity.

1.3 - The SUPPLIER is the only entity authorised to amend, suspend - partially or totally - or supplement the provisions set out in these General Conditions of Sale.

1.4 - The SUPPLIER reserves the right, without prior notice, to discontinue products or change product specifications. The SUPPLIER is free to make any design changes without prior notice.

1.5 - Any commercial transaction between the SUPPLIER and the Customer is subject to the laws of the Portuguese State, regardless of the Customer's domicile, and the District Court of Porto Este is the competent authority for the resolution of any dispute between the parties.

2. PRICES

2.1 - The prices shown in the sales literature are not binding. These prices may be changed without prior notice and/or formalisation by a written document issued by the SUPPLIER.

2.2 - Prices are only considered valid when indicated on the Proforma Invoice or Order Confirmation issued by the SUPPLIER.

2.3 - The prices shown in the sales literature correspond to Incoterm EXW (Ex-Works - Incoterms 2020) - goods made available to the Customer upon leaving the SUPPLIER's premises.

2.4 - Prices are quoted in Euros (EUR) and exclude Value Added Tax (VAT), which will be charged at the rate in force in Portugal on the date of issue of the invoices.

2.5 - Under the terms of the law currently in force and in the case of export to a VAT taxable person, acting as such, duly registered for VAT purposes in another Member State of the European Union, the respective commercial transaction is exempt from this tax, provided that the Customer proves, using the respective tax identification number, that the goods were delivered in a Member State of the European Union other than Portugal.

2.6 - The Customer is solely responsible for communicating their tax details to the SUPPLIER.

3. QUOTATIONS

All quotations submitted by the SUPPLIER are valid for 30 days.

4. SAMPLES

4.1 - Samples of products from the SENTTA catalogue are produced upon formal order and are invoiced.

4.2 - When there is an order for a minimum of 25 units of the model corresponding to the sample, the SUPPLIER shall issue a credit note for the sample within 120 days. This credit applies only to chairs and armchairs.

5. ORDERS

5.1 - Orders must be placed in writing by the person responsible for the purchasing entity with the authority to do so, and are subject to approval by the SUPPLIER's sales department.

5.2 - Upon receipt of the order, the SUPPLIER shall issue the respective Proforma Invoice or Order Confirmation, indicating the characteristics of the products, the exact prices and the specific terms of the transaction. The Customer is responsible for checking and validating this document, namely the model, dimensions, quantity, wood, colour, fabric, foam, glides, delivery time, payment terms, delivery address, etc.

5.3 - The Order Confirmation must be returned to the SUPPLIER, duly signed and stamped, within 48 hours of receipt. After this period, and in the absence of confirmation from the Customer, the SUPPLIER shall consider the order to be accepted. Failure to expressly reject orders implies tacit acceptance of all their terms and conditions.

5.4 - Orders involving advance payment will only be scheduled for production after receipt of such payment. The order only becomes valid after receipt of the contract amount.

5.5 - Orders will be produced and invoiced according to the specifications indicated on the Proforma Invoice or Order Confirmation.

5.6 - Orders involving the use of fabrics/colours supplied by the Customer - C.O.M. - are processed for production after receipt of all these materials.

5.7 - Standard packaging is included in the price. If the customer requires specific packaging, it will be charged according to the type of packaging requested.

5.8 - The loading date mentioned in the Order Confirmation is an estimate. The SUPPLIER declines any responsibility for delays in the supply of goods when this results from reasons beyond its control or from force majeure or unforeseeable circumstances that prevent the manufacture of the products. For this reason, failure to meet the loading date shall not justify the cancellation of the order by the Customer, nor shall it serve as grounds for claiming any compensation.

5.9 - In the event that, for any reason, there is a delay or failure to deliver the goods, a defect in quantity, type or any inaccuracy in the description of the goods listed on the Proforma Invoice or Order Confirmation, even if due to the fault or negligence of the SUPPLIER, the latter's liability shall not, under any circumstances, cover indirect damages suffered by the buyer, such as loss of a resale transaction, business or other similar profits or lost profits.

5.10 - If the customer is unable to receive or load the material within 30 days after the agreed loading date, full payment for the order must be made at the end of those 30 days. As the SUPPLIER does not have storage space for the final product and if the customer does not agree to collect or receive the goods on the date they are ready for shipment, the SUPPLIER reserves the right to transfer the products to an external warehouse at its sole expense, without this implying any provision of services to the customer. At the end of the 30 days after the agreed loading date, the customer will be in breach of contract and will be obliged to pay daily compensation of €2/m³ to compensate for the losses resulting from the delay, including lost profits and indirect costs, regardless of any actual storage action.

6. CHANGES AND CANCELLATION

6.1 - Requests for changes to confirmed orders must be communicated in writing and are subject to approval. The SUPPLIER reserves the right to charge administrative costs, labour costs and costs for materials already purchased, and the scheduled loading date may also be changed.

6.2 - Requests to cancel an order must be communicated to the SUPPLIER in writing within 2 working days of the issue of the respective Order Confirmation. Order cancellations will not be accepted after manufacturing has begun and after the fabric(s) has/have been cut and the raw material has been ordered.

7. PRODUCT SPECIFICATIONS

7.1 - The dimensions and specifications of the products presented in the sales literature are approximate. Changes are periodically made to the models in order to improve their construction and design. For this reason, the SUPPLIER declines any responsibility for product improvement changes and also reserves the right to discontinue any product without prior notice.

7.2 - The fabrics presented in the sales literature correspond to material samples and are purely decorative, as the SUPPLIER is not a fabric manufacturer. The SUPPLIER declines any responsibility for the resistance, quality, colour differences between batches, fire resistance, stain resistance, waterproofing and maintenance of fabrics supplied either by the SUPPLIER or by the Customer. The SUPPLIER is also not responsible for any stock shortages or cessation of production of the different fabrics or materials. The SUPPLIER reserves the right to change the shape of the upholstery depending on the type of fabric to be used, and it may be necessary to add pleats or add/change seams.

7.3 - The finishing colours of the material may be changed by the SUPPLIER due to technical or practical constraints, without prior notice. Colour samples are merely indicative, and the final product may differ from them. The SUPPLIER declines any responsibility for colour variations resulting from the application of finishes to different materials such as wood and veneer. When orders with this specification are intended to complement previous orders, the Customer is responsible for providing samples in order to avoid colour differences between the products supplied in the two periods.

7.4 - For technical, economic and/or safety reasons, some products - e.g. tables - will be delivered unassembled. The SUPPLIER accepts no responsibility for consequences resulting from faulty assembly of these products.

7.5 - Veneered table tops: the use of this type of material is not recommended and the SUPPLIER is not responsible for its replacement. If you choose this type of material, you must comply with the care instructions in the SUPPLIER's Maintenance Care Manual.

8. RISK AND RESPONSABILITY OF SHIPMENT

8.1 - The weights and cubic metres presented in the sales literature may vary due to product improvements or the needs of the packaging and logistics department.

8.2 - Goods sold by the SUPPLIER are, by default, shipped in accordance with Incoterm EXW (Incoterms 2020) - the SUPPLIER is only responsible for the costs and risks of packaging at its premises. The risk of accident, damage, loss, as well as the costs associated with transport, customs duties, taxes, recycling of used packaging and other associated expenses, are the sole responsibility of the Customer.

8.3 - The SUPPLIER may ship the order in accordance with another Incoterm, if expressly agreed with the Customer and confirmed in writing. However, the Customer is responsible for reimbursing the costs associated with this procedure at the time of settlement of the order value. The SUPPLIER has the right to review the transport price before loading. The SUPPLIER undertakes to itemise these costs on the respective invoice. These costs do not include unloading, unpacking or installation.

Any transport of goods from their final destination to a second location will void any right to claim transport damages. It is highly recommended to use a qualified warehouse to receive and inspect the goods upon delivery.

8.4 - By legal requirement, all pallets leaving the SUPPLIER are heat treated and bear the appropriate ISPM 15 marking. If during transport the material is transferred to other pallets, the SUPPLIER is not responsible for non-compliance with this measure. It is mandatory that all pallets supplied by the Customer have the same treatment and marking. Failure to comply with this measure will result in fines of more than €10,000, imposed by the competent government authority.

SENTTA brand goods are always shipped on pallets to prevent damage. Failure to accept goods shipped on pallets means that the supplier is not liable for any damage caused.

8.5 - When transport is contracted by the SUPPLIER at the customer's request, the SUPPLIER assumes no responsibility for the costs, deadlines or delays established by the carrier.

8.6 - All products shipped by the SUPPLIER are carefully inspected and packaged. The customer must examine all goods before accepting them. In case of damage to the box, please check your goods, and if they are damaged, please note: DAMAGED MATERIAL, on the CMR document and on the carrier's delivery note. Without this record, the SUPPLIER is not liable for damages. The occurrence must be reported to the SUPPLIER within 3 working days after receipt of the material in order for the transport insurance to be activated. If the transport document does not contain any reservation note, the SUPPLIER will not accept any subsequent claims.

9. COMPLAINT AND RETURN POLICY

9.1 - Any discrepancies between the Customer's order and the material delivered – quantities, colours and fabrics – must be communicated to the SUPPLIER in writing within 8 working days of receipt of the goods. The SUPPLIER is not responsible for repairing or replacing material for which a complaint is made after this period has expired. The complaint will only be opened after receipt of photographs of the product in question and if the complaint cannot be visualised from the photograph, the SUPPLIER will have to receive the product for further verification.

9.2 - No agent, representative or employee of the SUPPLIER has individual legitimacy to give a guarantee in relation to the products traded, unless authorised in writing by the SUPPLIER.

9.3 - If the complaint is accepted, the SUPPLIER is solely responsible for choosing whether to repair or replace the material. Replacement will only be carried out if repair is not technically possible or economically viable. If the products have manufacturing defects, the Customer undertakes not to use them, under penalty of losing the right to make the respective complaint.

9.4 - Returns of goods must be formalised by the Customer in writing, but are subject to express authorisation by the SUPPLIER, with the Customer bearing all costs associated with the return. The SUPPLIER does not accept products that have been altered and/or have had value added.
